Sports

Today is good day for athletes at Caledonia high school. The MHSAA finally allowed the participation of soccer, volleyball, swim, and football for the fall season."I really can't wait to get back into the swing of things", said James Jameson. "It'll be nice to be out and moving again".

Although the sports are now able to participate, there will be some catches. One of them being the athletes *must* wear a mask at all times, even while on the field/court. I don't know about you but, that seems kind of rough. Another being there must be temperature checks at every practice and game.
